

RESEARCH & DEVELOPMENT

We offer research and development capacities, primarily in the field of boron chemistry. We have successfully completed dozens of joint research projects with the range of research institutions and private companies in our 30 years history on the market. We have well-equipped laboratories with technological and analytical equipment. Our expert team is experienced and highly capable.

We research, prepare and develop world-class production technologies in the field of boron chemistry. A large proportion of our experts have also worked in the basic research. They are familiar with the academic environment and have experience in project management with implementation. Teams consisting of both commercial and academic experts. We have experience in dealing with projects within international consortia.

we are a **strong partner** with a wealth of experience

our development focuses on the **most efficient and cheapest** production technologies

we have a **dominant market position** with many of our products

we supply our products **all over the world**

we produce a range of products that **we have developed** in our laboratories ourselves

we have **well-equipped** laboratories
